Professional Summary

Computer Science Engineering graduate specializing in DevOps with hands-on experience in AWS, Linux, Docker, Terraform, Ansible, and Python. Strong understanding of cloud infrastructure, deployment workflows, CI/CD concepts, and infrastructure automation. Passionate about building reliable systems, automating operational processes, and supporting scalable cloud environments.

Core Skills

Cloud Platforms: AWS (EC2, S3, IAM, VPC, RDS, CloudWatch, Route 53)

DevOps: CI/CD Concepts, Git, GitHub, Infrastructure as Code, Release Management

Infrastructure & Automation: Terraform, Ansible, Docker, Linux Administration, Shell Scripting

Programming: Python, Bash, REST APIs

Tools: AWS CLI, GitHub Actions, Docker, Terraform, Ansible

Experience

Business Development Intern – Sovereign Advisories, Mumbai Dec 2024 – Mar 2025

- Maintained structured documentation, reports, and operational records across multiple ongoing initiatives.
- Coordinated with stakeholders to ensure timely execution of tasks and project deliverables.
- Analyzed performance data and prepared reports to support decision-making.
- Developed strong problem-solving, communication, and process management skills in a fast-paced environment.

Projects

AWS Infrastructure Provisioning using Terraform

- Automated provisioning of AWS resources including EC2 instances, IAM configurations, and networking components using Terraform.
- Implemented Infrastructure as Code practices to improve deployment consistency and reduce manual configuration effort.

Configuration Management using Ansible

- Automated package installation, server configuration, and application deployment using Ansible playbooks.
- Managed Linux systems through centralized and repeatable automation workflows.

Dockerized Application Deployment

- Containerized applications using Docker and deployed them in Linux-based environments.
- Improved deployment portability, consistency, and environment management through containerization practices.

Education

Bachelor of Engineering (B.E.) in Computer Science (DevOps) Aug 2022 – Jun 2026
Chandigarh University, India

Higher Secondary Education (Science) Jun 2020 – Mar 2022
SVKM, Mumbai, India

Certifications

Google Business Intelligence Professional Certificate – Coursera Mar 2026

Google Data Analytics Professional Certificate – Coursera Dec 2025
